- Teamwork

EDUCATION

VANITA VISHRAM WOMEN'S UNIVERSITY

Bachelor of Computer Applications (BCA)
Current CGPA: 8.18

HIGHER SECONDARY (12TH)
50.15%

SECONDARY (10TH)
85.5%

OBJECTIVE

I am a dedicated and enthusiastic BCA student with a keen interest in web development. I have a basic understanding of front-end technologies and I am eager to learn and grow in full-stack development. I am also passionate about exploring and using AI tools effectively to improve productivity and build smarter solutions. I am looking for an opportunity where I can gain practical experience, learn new technologies and contribute to real-world projects.

PROJECTS

Hospital Appointment Booking System

Developed a website for hospital appointment booking system with user authentication, service details and scheduling. The system helps users easily book appointments and access hospital services.

Agritech Website

Designed a responsive agriculture e-commerce website with features like product listing, shopping cart, payment and about section.

IOT - Based Heart Beat Rate System

Developed an Iot project to measure and display real-time heart beat rate using a Sensor, Arduino, and other objects.
